

## Legacy PowerPoint Slides

PowerPoint slides were created using both proprietary images and images from an online graphics shop. The slides include the words to all the songs and are shown simultaneously as the words in the songs are sung. The slides not only help the audience understand the words that are being sung, but by hearing the words and reading the words, accompanied by touching images, including those of the Savior, the spirit and feeling of the songs are enhanced significantly. In addition, several slides without words are shown as the grandmother reads from her journal and portrays what she is referring to.

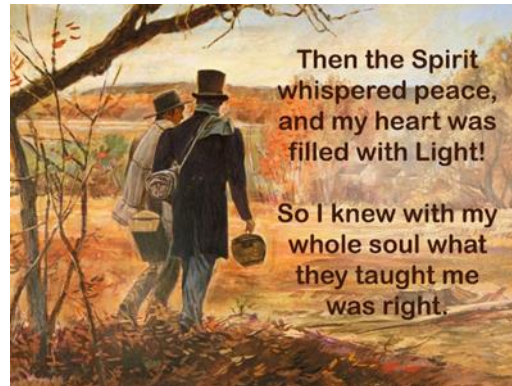

The slides are projected on an extra-large screen above the actors so the audience can see both the actors/singers and the slides at the same time. Showing the slides on one or two large screens on the side(s) of the performance would also be effective.

We would make available the entire PowerPoint presentation with written direction as to when to show each slide in coordination with the performance. Included below are samples of the slides accompanying one of the songs, "I Know the Gospel's True." This song is also referred to in our script explanation and included in its entirety under "Music" on this webpage.

# POWERPOINT SLIDES FOR I KNOW THE GOSPEL'S TRUE

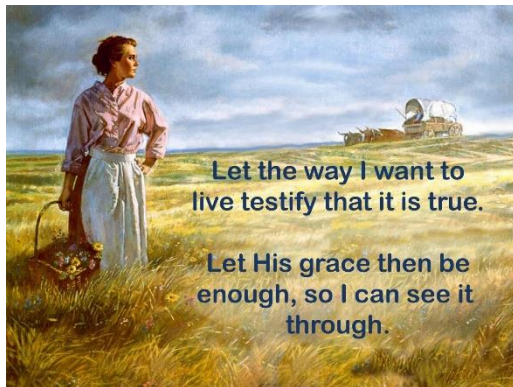

I will not forget  
the day missionaries  
met with me. Their  
sweet message let  
me see they came  
with the gospel  
truth.

Then the Spirit  
whispered peace,  
and my heart was  
filled with Light!

So I knew with my  
whole soul what  
they taught me  
was right.

Let the way I want to  
live testify that it is true.

Let His grace then be  
enough, so I can see it  
through.

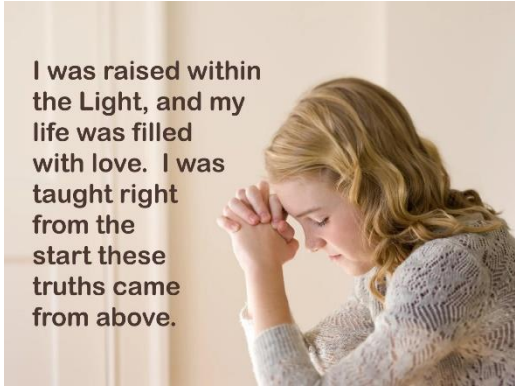

Let His Spirit be in me,  
And His constant love  
renew.

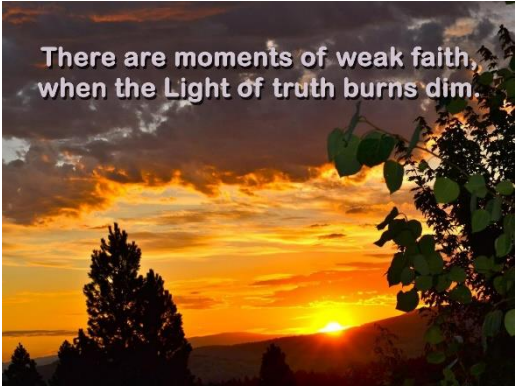

I know the gospel's true.  
I know the gospel's true.

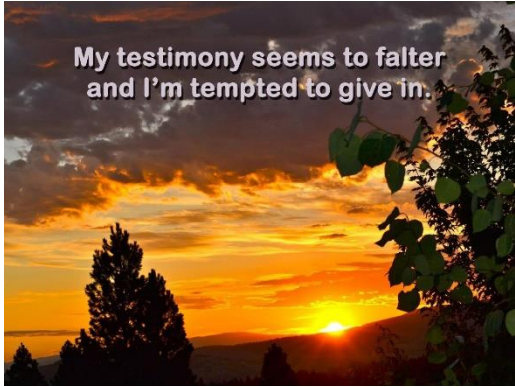

I do not remember  
when I first felt for  
sure I knew. I  
think that I have  
always known  
the gospel's  
really true.

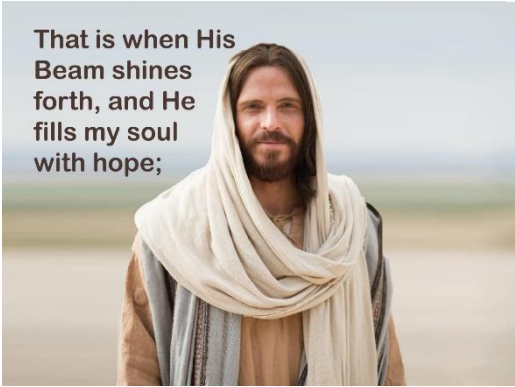

I was raised within the Light, and my life was filled with love. I was taught right from the start these truths came from above.

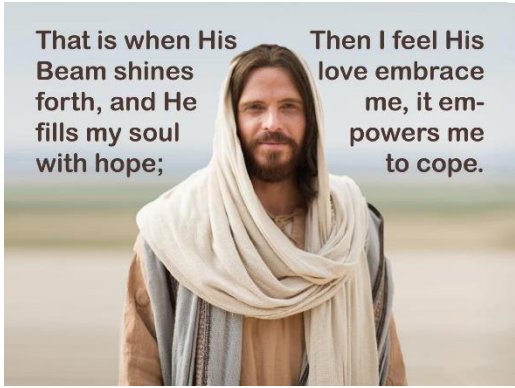

There are moments of weak faith, when the Light of truth burns dim.

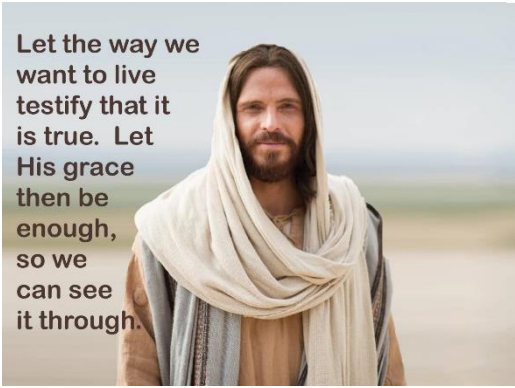

My testimony seems to falter and I'm tempted to give in.

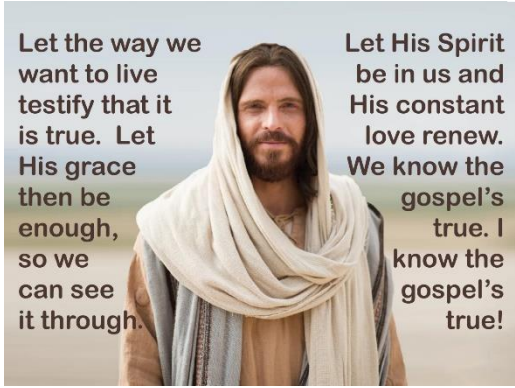

That is when His Beam shines forth, and He fills my soul with hope;

That is when His Beam shines forth, and He fills my soul with hope; Then I feel His love embrace me, it empowers me to cope.

Let the way we want to live testify that it is true. Let His grace then be enough, so we can see it through.

Let the way we want to live testify that it is true. Let His grace then be enough, so we can see it through. Let His Spirit be in us and His constant love renew. We know the gospel's true. I know the gospel's true!
